Professional Summary

Computer Science undergraduate with experience building Java, Python, SQL, and REST-based applications. Strong foundation in object-oriented programming, database fundamentals, API development, and software testing. Interested in analytics-driven software products and quality engineering.

Technical Skills

Languages:	Java, Python, SQL, JavaScript, C++
Core:	OOP, DBMS, Data Structures, REST APIs, Software Testing, Debugging
Databases:	MySQL, MongoDB, Database Design, Joins, Aggregation
Technologies:	Spring Boot, JPA, Hibernate, HTML5, Node.js, React.js
Tools:	Git, GitHub, Maven, JUnit, Selenium WebDriver, Postman, Swagger

Education

SRM Institute of Science & Technology, Kattankulathur	2027
B.Tech in Computer Science and Engineering	
SRM Public School, Thuraiyur	2023
Class XII – CBSE, Bio-Maths	80.4%
SRM Public School, Thuraiyur	2021
Class X – CBSE	87.2%

Projects

Hotel Revenue Analytics API	<i>Java, Spring Boot, MySQL</i>
------------------------------------	---------------------------------

- Built a REST API for managing hotel bookings and analyzing revenue by hotel, month, and booking status.
- Used JPA/Hibernate for database persistence and implemented validation, exception handling, and Swagger API documentation.
- Added JUnit and MockMvc tests for booking operations and analytics endpoints.

E-Hospital: AI-Assisted Diagnosis Platform	<i>Python, SQL, Machine Learning</i>
---	--------------------------------------

- Developed an application that processes patient symptoms and provides AI-assisted disease predictions.
- Implemented Random Forest and NLP workflows with database-backed patient and prediction records.

Stadium Management System	<i>Python, SQL, DBMS</i>
----------------------------------	--------------------------

- Built a GUI application for ticket booking and event scheduling using a normalized relational database.
- Implemented SQL queries for managing customer, booking, and event data.

Certifications

Selenium WebDriver with Java	Aug 2026
Test Automation University	
Programming in Java	Dec 2024
NPTEL	
HackerRank SQL Advanced	Aug 2026
HackerRank	
MongoDB Associate Developer	Apr 2026
MongoDB	
Programming in C++	Apr 2024
Udemy	
Introduction to Machine Learning	Oct 2025
NPTEL	

Languages

English, Tamil, Hindi, Japanese – Elementary
